

Letter from your Chairman

COP 26 Summit – Glasgow

Your Parish Councillors were particularly interested in the Climate Change Conference held in Glasgow. Included were representatives from the Global Electric Vehicle Alliance from 12 countries in Europe. They travelled by electric car from their separate countries and assembled in Brussels to continue as a group through the channel tunnel into England. Their first stop was at Grimsby for a visit and briefing, then on to Hull for a night at a hotel in the city. Once over the Humber Bridge and into East Yorkshire, the Slovene representatives were welcomed by East Riding Councillor Shaun Horton and Kirk Ella Parish Councillors Margaret & Stan Raymond who were eager to hear about their all electric 1000 mile journey from Ljubljana to England. The following day they were due to visit an electric car battery factory in the North of England before crossing the border into Scotland and on to Glasgow.

Their logo was made up of twelve national flags in a circle with the globe at the centre displayed on the back of bright green jackets. They were proud to show us this and to point out that the Slovene flag was next to the union jack at the top!

Cllr. Margaret Raymond, Chairman Kirk Ella and West Ella Parish Council

Stanislav Rozman showing Cllrs. Shaun Horton, Margaret & Stan Raymond the logo (at dusk!)
