Dear Sir/Madam

**Re: Planned Carriageway Maintenance Works – Gorton Road, Anlaby**  
**Including Haltemprice and Kingston Road Roundabouts**

As part of the Council's £12m capital programme of carriageway maintenance works, East Riding of Yorkshire Council intend to undertake a major resurfacing scheme on Gorton Road, Anlaby which includes Haltemprice and Kingston Road Roundabouts. The works are scheduled to start on Monday 19<sup>th</sup> October lasting until December 2020 (weather permitting).

The works involve resurfacing of the existing carriageway on Gorton Road and both Haltemprice and Kingston Road roundabouts, works on Gorton Road also include areas of deep reconstruction and concrete repairs. Extensive footway resurfacing and kerbing repairs are also included in the scheme.

To minimise the disruption caused to businesses and road users the work has been split into four phases with the aim of keeping disturbance and traffic congestion to a minimum. Please refer to the phase plan on the reverse of this letter for further information regarding individual closures and working hours.

As stated in the phase plan, it is necessary to close various sections of the site while works are being undertaken however we endeavour to provide access to residents (of properties within the closure), businesses and emergency services.

Access for Haltemprice Leisure centre will be as follows depending on the Phase of works being undertaken;

- Phase 1A – Access will be from Gorton Road southbound due to lane closures on Gorton Road between Haltemprice and the roundabout. Delays are to be expected.
- Phase 1B – Access will be unaffected.
- Phase 2 – Access will be from Gorton Road northbound due to lane closures on Gorton Road at Kingston Road roundabout.
- Phase 3 – Access will be strictly from Gorton Road northbound due to lane closures and ongoing works on Gorton Road between Haltemprice and Kingston Road.

Should you require any further information, have any special access requirements or wish to make any comments (before, during or after the works) please contact myself on the above phone number or email address.

Yours sincerely,

Daniel Haysom  
Project Manager
